

## Edenwald Earns Memory Care Seal of Excellence

***Organization Joins the Memory Care Excellence Network, an Initiative Developed by the National Council of Certified Dementia Practitioners to Shape Memory Care Research and Best Practices***

**BALTIMORE, MD** – MAY 8, 2025 – Edenwald has been awarded the prestigious Memory Care Seal of Excellence by the National Council of Certified Dementia Practitioners (NCCDP). This distinction recognizes Edenwald's commitment to providing exceptional dementia care and their dedication to advancing industry standards as part of the Memory Care Excellence Network (MCEN).

The Memory Care Excellence Network is a selective program designed to identify and support top-tier long-term care organizations that demonstrate the highest standards in dementia care. Facilities in the MCEN undergo a rigorous evaluation process, including assessments of staff training, operations, and ongoing competency in memory care. Approved organizations not only meet but exceed the expectations required to provide high-quality, person-centered dementia care.

"We are thrilled to welcome Edenwald into the Memory Care Excellence Network," said Patrick Smith, CEO of NCCDP. "They are now recognized as a leader in the field, setting the standard for best practices and innovative care."

"Being part of the Memory Care Excellence Network allows us to showcase our dedication to providing exceptional care to those living with dementia," said Mark Beggs, "We are honored to receive this recognition and are excited to continue making a positive impact on the lives of our residents."
