

Hoerich Hall Memory Care Assisted Living Neighborhood at Edenwald

Mission : Edenwald creates a caring community inspiring people to thrive and live lives of significance.

“**Welcome to The Neighborhood!** This is a home where residents, staff, and significant others are all a part of one big Hoerich Hall family. Neighbors are empowered by a social environment with robust programming and individualized care. We are thrilled to have you here with us! If you ever have any questions or concerns, please feel free to contact me or any member of our team for support.”

Donna Holmes, LPN/ALM/DCP

Neighborhood / Household Model of Care

Neighborhood refers to both the indoor and outdoor common areas. Residents have easy access to various activity options with the open floor plan design.

Household refers to the hallways with private living areas for each neighbor. Residents' own furniture and décor help to make the space comfortable for each person.

Neighborhood Engagement

Meaningful Engagement

We all need to feel a sense of belonging and connection with people in our lives. Persons with dementia may need more support to feel good about their day. Learning about each person's past and present interests, as well as their life roles, is essential to create meaningful days.

Life Enrichment

Life enrichment by definition is developing and maintaining a strong quality of life mentally, emotionally, socially, physically, and spiritually.

Life enrichment happens when assisting a neighbor during Activities of Daily Living (ADL's) and during scheduled recreation activities and with spontaneous interactions throughout each day.

Neighborhood Manager: 410-616-8834

Hoerich Hall Nursing Station: 410-616-8477

Memory Care Service Coordinator: 410-616-6146
